# ANIT SINGH

**Python Full Stack Developer | Django · DRF · React · PostgreSQL**

Noida, Uttar Pradesh | +91 8580807687 | anits8489@gmail.com | Immediate Joiner
LinkedIn: linkedin.com/in/anit-singh-1a7673363 | GitHub: github.com/AnitSingh2008

## PROFESSIONAL SUMMARY

Python Full Stack Developer with 1.5+ years of experience building and deploying live web applications using **React, Next.js, Python, Django, and Django REST Framework**. Strong in REST API integration, PostgreSQL, and end-to-end development from backend logic to responsive frontend. Currently working on full-stack projects with Django backend + React frontend. Based in Noida and available to join immediately.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit
**Backend:** Python, Django, Django REST Framework (DRF), REST API, Node.js (Basic)
**Database & Tools:** PostgreSQL, MySQL, Git, GitHub, Postman, VS Code, Vercel, Render, Figma
**Integrations:** JWT Authentication, Stripe Payments, SMTP (Gmail) / Email OTP, Axios

## WORK EXPERIENCE

**Full Stack Developer — DigiPanda** July 2025 – Present | Noida
*Working as Full Stack Developer since July 2025*

- Deliver full-stack features end to end, from **Python/Django** backend logic and REST APIs to responsive React and Next.js interfaces.
- Integrate complex **REST APIs** and **SMTP** email services to power data flow and automated communication pipelines.
- Shipped UI and features for **4+ live client production websites** built on Next.js, including a heat-pump brand site and gaming platforms.
- Convert Figma designs into pixel-perfect, accessible, responsive interfaces with consistent cross-browser behaviour.
- Optimise page performance and load times across production projects; collaborate via Git/GitHub workflows.

## PROJECTS

**E-Commerce Full Stack Website — Django + React** Deployment in Progress
*Python, Django, Django REST Framework, React, PostgreSQL, Stripe, SMTP (Gmail)*

- Architected a complete e-commerce platform with a **React** frontend and **Django REST Framework** API backend.
- Engineered full authentication: signup, login, and **email OTP verification** via Gmail SMTP.
- Built product listing, cart, and order placement modules with **user-specific order history**.
- Integrated **Stripe Payment Gateway** (test mode) for secure online checkout.
- Designed a relational **PostgreSQL** schema for products, users, orders, and payments; deploying backend on Render.

**Full Stack Task Management App** Django + React
*Python, Django, Django REST Framework, React, PostgreSQL*

- Built REST APIs with **DRF** for user authentication, task CRUD, and **role-based access control**.
- Connected React frontend to Django backend using **Axios and JWT authentication**.
- Implemented PostgreSQL storage with **pagination and filtering**; deployed the backend on **Render**.

**Opinings — Job Portal Web Application** Live
*Next.js, React, Redux Toolkit, REST API · https://opinings.com/*

- Developed a dynamic job portal with a **company admin panel** to post jobs and manage applications.
- Built direct-apply flow and a dashboard workflow to **shortlist, hire, or reject** candidates; state managed with Redux Toolkit.

**Client Production Websites — Next.js** Live
*hyundaiheatpumps.co.in · reddyanna888.com · 1xfour.co · lotus70.com*

- Built responsive UI for 4 live client sites; implemented **Markdown-based blog systems** with no backend dependency.

**Biogiri (E-commerce UI) & Crypto Flow (Dashboard UI) — React** Live
*biogiri-project.vercel.app · crypto-flow-topaz.vercel.app*

- Built responsive React UIs with React Router navigation, reusable components, and smooth animations.

## EDUCATION

**Bachelor of Computer Applications (BCA) — Sardar Patel University, Mandi, HP** 2022 – 2025
**12th (CBSE) — Kendriya Vidyalaya Dalhousie** 2022

**Languages:** English, Hindi
